SACHI A. HAMAI  
 Chief Executive Officer

May 15, 2018

The Honorable Board of Supervisors  
 County of Los Angeles  
 383 Kenneth Hahn Hall of Administration  
 500 West Temple Street  
 Los Angeles, California 90012

Dear Supervisors:

**ADOPTED**

BOARD OF SUPERVISORS  
 COUNTY OF LOS ANGELES

18 May 15, 2018

CELIA ZAVALA  
 ACTING EXECUTIVE OFFICER

Board of Supervisors  
 HILDA L. SOLIS  
 First District

MARK RIDLEY-THOMAS  
 Second District

SHEILA KUEHL  
 Third District

JANICE HAHN  
 Fourth District

KATHRYN BARGER  
 Fifth District

**APPROVE THE 2017-18 LOS ANGELES COUNTY LOCAL FUNDING PRIORITIES  
 FOR SUBSIDIZED EARLY CARE AND EDUCATION SERVICES  
 (ALL DISTRICTS AFFECTED)  
 (3-VOTES)**

**SUBJECT**

Local Child Care and Development Planning Councils (LPCs), funded by the California Department of Education (CDE), are required to complete, on an annual basis, geographic priorities for the expansion of subsidized early care and education services. The Los Angeles County Child Care Planning Committee (Planning Committee), in conjunction with the Chief Executive Office (CEO), is submitting the Los Angeles County geographic funding priorities for early care and education services for Fiscal Year (FY) 2017-18 for approval by the Board of Supervisors (Board).

**IT IS RECOMMENDED THAT THE BOARD:**

1. Approve and instruct the Chair to sign the Los Angeles County General Child Care and Development Program (CCTR) Priorities for Full-Day Infant and Toddler Services – FY 2017-18 (Attachment I).
2. Approve and instruct the Chair to sign the Los Angeles County California State Preschool Program (CSPP) Full-Day and Part-Day Priorities – FY 2017-18 (Attachment II).
3. Approve and instruct the Chair to sign the Los Angeles County General Child Care and Development Program (CCTR) Priorities for School Age Children – FY 2017-18 (Attachment III)

The Office for the Advancement of Early Care and Education (OAECE) will submit the signed documents to the CDE.

### **PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION**

Pursuant to State requirements, formal approval by the Board and the County Superintendent of Schools is needed before submitting the geographic funding priorities to the CDE. Education Code 8499.5 requires LPCs in each County to submit to the CDE the local priorities it has identified that reflect the need for subsidized early care and education services in the County. Priorities are reviewed annually to determine if circumstances have changed creating new or different areas of need. The results are compiled in the LPC Local Funding Priorities reports in the format as required by the CDE.

### **Implementation of Strategic Plan Goals**

Approval of the geographic funding priorities broadly supports the County's three goals – Make Investments that Transform Lives; Foster Vibrant and Resilient Communities; and Realize Tomorrow's Government – by identifying communities that could benefit from increased public investments meant to expand the supply of subsidized early care and education services targeted to families most in need. Early care and education serves the dual purpose of promoting the overall well-being of children and their families while providing parents/primary caregivers with the support they need to achieve and maintain self-sufficiency through employment and/or education. The information available in the documents will assist both County personnel and community-based organizations in addressing the most pressing needs for early care and education services for County clients and low-income families.

### **FISCAL IMPACT/FINANCING**

CDE contracts require and fund the data collection efforts needed to complete the countywide priority-setting process. Approval by the Board of these documents is needed to fulfill contract requirements. There is no direct fiscal impact to the County for approving the documents.

### **FACTS AND PROVISIONS/LEGAL REQUIREMENTS**

To comply with all statute and Education Code requirements, the geographic funding priorities are established by analyzing data on all children from birth through 12 years old in working families with incomes of up to 70 percent of State Median Income. This data is then compared to the availability of subsidized early care and education services to inform the priority-setting process.

The process for approving the geographic funding priorities includes both the approval of the County Superintendent of Schools and the Board. Dr. Debra Duardo has indicated her approval on each of the three documents. Prior to Dr. Duardo's endorsement, a public hearing on the geographic funding priorities as required by statute was held on February 7, 2018, and then the geographic funding priorities were presented to and approved by the Planning Committee on March 7, 2018.

Geographic priorities for the expansion of subsidized early care and education services were calculated at the zip code level, relying on data compiled by the American Institutes for Research (AIR) on behalf of the LPCs across the state. AIR gathers the data from multiple sources, including the California Child Care Resource and Referral Network, CDE, California Department of Public Health, the American Community Survey PUMS data, and an AIR-administered survey of Head Start programs population. The annual survey of subsidy programs conducted by the OAECE in partnership with Los Angeles County Office of Education, augmented the AIR data to ensure a more accurate representation of children enrolled in Early Head Start programs offered in family child care homes and center-based settings and in Family Child Care Home Education Networks. Formulas provided by the CDE were applied to the data, ranking high need zip codes as a first, second, or third priority. In addition, the Planning Committee assigned a fourth ranking as an allowable option by the CDE to additional zip codes that did not meet the methodology, yet experience a gap in the availability of subsidized services for young children of low-income families.

The analysis identified 125 zip codes for expansion of early care and education services targeting infants and toddlers (Priority 1 = 23; Priority 2 = 61; Priority 3 = 41). An additional 138 zip codes were identified with gaps in services, although not meeting the threshold for a Priority assignment 1, 2, or 3. In contrast, 44 zip codes received a priority designation for half- and full-day preschool expansion combined (Priority 1 = 4; Priority 2 = 20; Priority 3 = 20); an additional 204 zip codes that do not meet the threshold for a Priority assignment 1, 2, or 3, also show a gap in services. Based on the analysis, there is a significant need for subsidized early care and education services for children from birth through five years old, particularly for infants and toddlers. For school age children, 193 zip codes are identified as high-priority areas, with an additional 109 zip codes presenting a gap, although not meeting the threshold for a Priority assignment 1, 2, or 3.

### **IMPACT ON CURRENT SERVICES (OR PROJECTS)**

Compiling, analyzing and sharing the data produced in the geographic funding priorities: 1) assists programs currently providing subsidized early care and education services; 2) serves as a resource to programs considering the development or expansion of programs; and 3) helps community-based organizations working with families in

accessing subsidized services. The geographic funding priorities also will inform the strategic planning process to be undertaken by the Planning Committee to be completed by the end of FY 2018-19 and the Policy Roundtable for Child Care and Development as it prepares the next iteration of its policy framework. Furthermore, the geographic funding priorities may serve as an effective tool to advocate for increased public investments in early care and education services for underserved populations, which include many families who also utilize County services.

Assigning priorities to zip codes, however, is not a perfect science. The demographic data on children is based on the residence of the family, whereas access to services relies on data reported by the location (e.g., zip code) of the early care and education program. While most families are likely to enroll their children in programs close to home, fluidity across zip codes may occur based on family preference or the unique needs of the child and/or family. In addition, programs targeted to specific populations of children and families may serve a larger geographic region, such as for families experiencing homelessness or children with disabilities or other special needs. Consequently, new funding for the expansion of services that is prioritized to the highest communities of need may not reach programs that are located in a lower priority zip code, yet are serving our most vulnerable populations of children.

As such, the Planning Committee opted to give a fourth priority assignment (3\*), as allowed by the CDE, to zip codes that do not meet the threshold for a priority ranking of 1, 2, or 3, yet represent a gap between the supply of and the demand for subsidized early care and education services for low-income families. Furthermore, the Planning Committee is making background data for assigning priorities publicly available on the OAECE website with instructions on how to use it for deeper analysis of needs at the community level that is not bound by individual zip codes.

Notably, determining priority zip codes for school age programs serving children from five through 12 years old of low-income families is a complicated process. Given that state contracted programs for school age children are in short supply, low-income families seeking services are likely to rely on the state funded After School Education and Safety Program and the federally funded 21st Century Community Learning Center or other programs administered by school districts and/or community-based organizations, for example, the Los Angeles Unified School District's Beyond the Bell programs or LA's BEST (Better Educated Students for Tomorrow) After School Enrichment Program. Most of these programs are designed to provide academic supports and recreational activities to school age children in high-need communities, yet many working families use these programs as "child care." Unfortunately, few operate during out-of-school sessions (winter, spring, and summer breaks or during free pupil days), often creating difficult decisions for families attempting to fill these gaps in services. Accordingly, families may rely in programs such as the Boys and Girls Clubs,

The Honorable Board of Supervisors  
May 15, 2018  
Page 5

local park programs and/or family, friends or neighbors as free to low-cost options. As an aside, many of these programs are exempt from licensing.

### CONCLUSION

The geographic funding priorities documents will guide the distribution of funds should the Federal Government or the State Legislature approve additional investments.

Upon approval by the Board, the documents will be posted on the OAECE website at [www.childcare.lacounty.gov](http://www.childcare.lacounty.gov).

Two signed copies (original signatures in blue ink are required) of each set of geographic priorities should be sent to:

Office for the Advancement of Early Care and Education  
Service Integration Branch, Chief Executive Office  
222 South Hill Street, 5<sup>th</sup> Floor  
Los Angeles, California 90012

Copies will be forwarded to the CDE as required.

Respectfully submitted,

  
SACHI A. HAMAI  
Chief Executive Officer

  
NELLIE RÍOS-PARA  
Chair, Los Angeles County  
Child Care Planning Committee
